**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We were a previous AT&T Uverse customer for our internet. We had constant bandwidth issues, couldn't stream more than one device and had frequent drops in connection. Being a telecommuter, who's constantly on WebEx and conference calls this was an extreme interruption! Especially when I was the meeting host, and when I dropped - it dropped everyone from the call. Once we connected with Sonic, we've had no issues! We can stream as many devices as we choose and have no service interruption. I wholeheartedly agree with allowing competitive DSL and phone service as it's allowed us to use the internet/phone to the best of our ability.
